

# MASTERING THE CANNULA FOR PAN-FACIAL REJUVENATION

Central Room A

Sunday June 17<sup>th</sup>: 7:00-7:55am

Speaker: Dr. Jani van Loghem

## MASTERING THE CANNULA FOR PAN-FACIAL REJUVENATION

MERZ AESTHETICS

Merz Australia has the pleasure of inviting you to attend the Merz Mastering the Cannula for Pan-facial Rejuvenation breakfast symposium with internationally recognised aesthetic physician Dr Jani van Loghem. The symposium will include the entire Merz portfolio with a specific focus on the launch of Radiesse® Ⓞ Lidocaine and Belotero® Lips.

**Dr Jani van Loghem M.D. Amsterdam, The Netherlands**

Jani van Loghem, vice-president of the Dutch Society of Aesthetic Medicine (NVCG), specialises in minimally invasive aesthetic treatments such as injectables, liposuction, lasers and chemical peels. Jani has been responsible for the content and execution of a 2-year curriculum of the new official medical profile specialism Aesthetic Medicine, which is held at the Academic Medical Center in Amsterdam. Jani is a member of important international societies like Expert2expert, the European College of Aesthetic Medicine and Surgery and the Global Faculty of the Merz Institute of Advanced Aesthetics.

Dr Jani van Loghem

“ I see the field of Aesthetic Medicine as a new medical specialty. I take my patients just as seriously as any other specialist does. Aesthetic Medicine is a fast growing and exciting field and I want to be part of its development. ”
