For Dysport PBS funding information, refer to www.pbs.gov.au. Please review the Australian Product Information before prescribing, available at www.galderma.com.au or via the QR Code.

NZ: **Dysport®** is a prescription medicine containing 300 & 500 IU of botulinum toxin, distributed in NZ by Galderma Australia Pty Ltd for the glabellar lines and lateral canthal lines indications. Before prescribing Dysport®, please review the full product information on dosage, contraindications, precautions, interactions and adverse effects, available at <http://www.medsafe.govt.nz/profs/Datasheet/d/Dysportinj.pdf>. Unfunded for glabellar lines and lateral canthal lines.

Restylane® and **Sculptra®** are class III medical devices, for injection into or below the skin. Restylane® gel contains hyaluronic acid 20 mg/mL and lidocaine 0.3%, used to smooth facial wrinkles and enhance lips by restoring volume and fullness. Sculptra®, a 150 mg poly-L-lactic acid implant liquid, improves the volume of depressed areas such as in wrinkles and folds, skin aging and facial fat loss. Before using either of these products please review the full product information on dosage, contraindications, precautions, interactions and adverse effects, available at www.galderma.com.au. Unfunded in NZ. Product and treatment costs apply.

Galderma Australia Pty Ltd, Level 18, 1 Denison St, North Sydney, NSW 2060, Australia. ABN 12 003 976 930.
